WHO WE ARE

Swan Apothecary is dedicated to creating holistic products. Our mission is to heal the root problem and alleviate the symptoms associated. We are a small-batch, family company that prioritizes organic ingredients so that our products are truly medicinal.

We have built our company solely on word of mouth and referrals. Swan Apothecary fuses years of North American herbal extractions and essential oil infusion into the creations of our products. We offer superior medicines that naturally address issues concerning our central nerve system, raise immunity and combat life-threatening illnesses.

LOVE ALL SERVE ALL

OUR FOUNDER

ROBIN SWAN

Robin Swan is an entrepreneur, business consultant, public speaker, herbal alchemist, and creator of Swan Apothecary. She is a pioneer in the medical cannabis field and brings over 30 years of experience as a holistic health practitioner and creator of cannabinoid medicines. Robin grew up in the cannabis industry and has worked with the full cannabis plant panel since 1996.

Robin comes from a lineage of herbalists who use recipes that have been passed on for thousands of years. She grew up learning these influential herbalism techniques from her grandmothers and aunties. The knowledge Robin infuses into her cannabinoid medicine dates back to 600 b.c.e. When creating medicine, Robin combines old world wisdom with new world accessibility, making her products like nothing else on the market.

Between 2007 - 2009, cancer claimed nine lives of Robin's close family members. These devastating tragedies inspired her to create high-quality medical cannabis oil using ancient extraction techniques that can help combat cancer and relieve symptoms. Robin has also been a leader in the field of soft tissue repair, creating modalities that focus on healing spinal cord injury and brain trauma. Her herbal products are known for providing relief from chronic pain and reducing the need for pharmaceuticals.

Robin's holistic approach integrates and restores the physical, emotional, spiritual, and mental facets of the body. This focus on whole-body integration and healing is essential for living in a balanced state and enjoying a joy-filled, pain-free life.

Robin's guiding philosophy is "Love All ~ Serve All." This idea influences every aspect of her business. Swan Apothecary is committed to the principles of faith, hope, charity, and love for all.

SWAN APOTHECARY

FROM NATURE TO YOU

Swan Apothecary is committed to the regeneration of the spirit of humanity. Our mission is to provide medicine from grandmother earth that feeds all aspects of the human condition. We hope to bring balance, understanding and wellness to the mental, emotional, and physical arena of the human experience. It is our mission to support you in a way that empowers, educates and enlightens you to make well-informed decisions regarding your health.

Our products are made in small batches with the purest ingredients available to us. Our lab and workspace are set up on an alchemical grid to create a synthesized work environment. We believe you must treat the entire body and all aspects of the human experience to achieve optimal health. This is why we offer products that feed the olfactory sense. We are here to assist you in finding the best match to allow your body to do its good work so you may fully enjoy the human experience.

Please, enjoy our catalog!

Genesis 1:29 - And God said, Behold, I have given you every herb bearing seed, which is upon the face of all the earth, and every tree, in the which is the fruit of a tree yielding seed; to you, it shall be for meat.

For generations, members of CEO Robin Swan's lineage have cultivated cannabis for medicinal use. This deep-rooted experience gives us complete transparency—from seed to sale—allowing us to stand behind every product and every hand involved before it reaches you.

Guided by the concept of a three-part harmony, our concentrates are sourced from three premier California cultivation sites.

The first is led by Swan's uncle, Tom, who earned a Ph.D. in Literature from Stanford before dedicating his life to organic cultivation. At 23, he relocated to the Sierra Nevada mountains, where he began growing cannabis. Now 83, Tom continues to develop FENO strains, bringing over six decades of cultivation expertise. His work has produced exceptional medicinal-quality flower and has supported our mission since we began serving patients with serious illnesses in 1996.

Our second cultivation site is located along California's northern coast in Humboldt County. There, amidst nutrient-rich soil, towering redwoods, and a climate shaped by coastal fog, Swan's family member Andy cultivates distinctive strains. As a co-creator of the Green Crack strain and the developer behind the renowned OrgannaBliss FENO line, Andy produces large, terpene-rich flowers that contribute depth and potency to our concentrates.

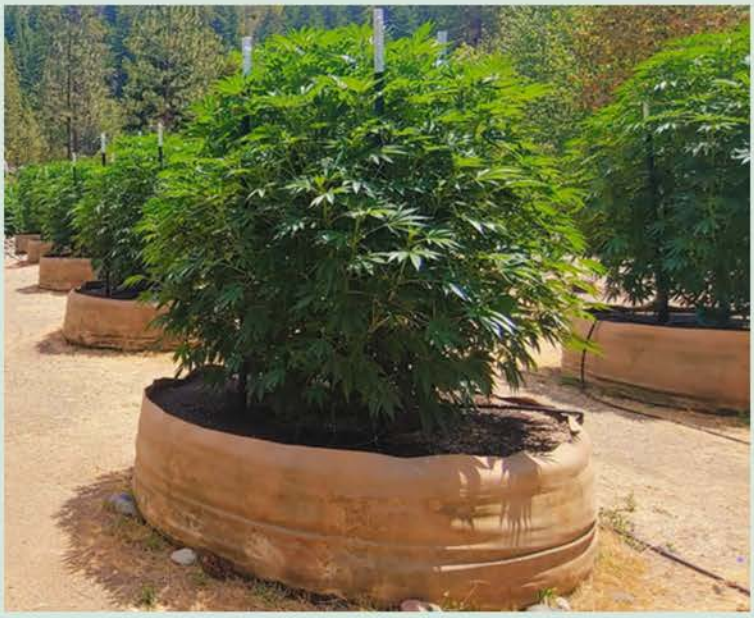

The third pillar of our cultivation comes from Trinity Roots, a glacier-fed, multi-generational organic farm. Serving as the structural backbone of our FENO strains, Trinity Roots provides priority genetics selected for their integrity, consistency, and expression of the plant's full molecular potential.

Our long-standing relationships with family members and multi-generational farmers ensure the consistency and integrity of every product we offer. Through these trusted partnerships, we are able to bring together a unique expression of California's finest cultivation environments—sun-drenched landscapes, glacier-nourished soil, and ecosystems rich in biodiversity, all touched by coastal morning dew.

Our psilocybin offerings are thoughtfully sourced through two distinct methods. Psilocybe azurescens are wildcrafted along the northern Oregon coast using mindful, respectful harvesting practices. In contrast, Psilocybe cubensis are carefully cultivated in controlled environments, where factors such as pressure, sound, and light are optimized to support consistent growth and quality.

We select these complementary fungal varieties to offer a range of experiences suited to different personal needs and intentions: Psilocybe azurescens, which naturally grow among dune grasses and are shaped by the elements of water, wind, and earth, are often used in microdosing practices to support a sense of balance and alignment. Psilocybe cubensis are known for their approachable and uplifting qualities. They are often associated with enhanced perspective, emotional openness, and moments of lightness and joy.

FIREKITTY CATEGORY

THE POWER OF FIREKITTY THERAPY.

FireKitty Oil is our signature recipe. It works as an oral and transdermal infusion for calming and comfort. The recipe for FireKitty Oil was used by the ancient Sumerians with the first recording of its use dating back to 600 B.C. An olive oil infusion of cannabis, frankincense, myrrh, rosemary, calendula, and cinnamon.

FIREKITTY HOLY ANOINTING OIL

Firekitty Oil is our signature recipe created for neuromuscle issues. This oil is safe for use both topically and orally, addressing everything from skin to neurology.

Firekitty treats a number of issues from sore muscles to nerve system issues. Firekitty works transdermally to address pain on contact and is beneficial orally for anxiety, sleep issues, and childhood seizures.

The recipe for Firekitty Oil was used by the ancient Sumerians, dating back to 600 bc. Firekitty is an olive oil infusion with cannabis, frankincense, myrrh, rosemary, calendula, and cinnamon. The herbs catalyze the cannabis for an excellent topical healing experience. This is a great alternative for those who are sensitive to the concentrated oil and cannot take it internally. Great for all muscle and nerve issues.

INFUSIONS CATEGORY

HIGHLIGHTING LOW DOSE INFUSIONS

Our Cannabinoid-Based Natural Infusions category features products made with cannabinoid compounds and natural ingredients intended to support overall wellness. Crafted with quality and consistency in mind, these infusions provide a natural option for individuals seeking alternative or complementary care.

LOW vs HIGH DOSE

Swan Apothecary infusions are offered in both low-dose (600 mg) and high-dose (3000 mg) formulas to meet different levels of need. The low-dose tinctures are ideal for daily nervous system support, mood balance, sleep, and mild to moderate inflammation—gentle, effective, and easy to integrate into everyday life.

The high-dose tinctures are designed for deeper therapeutic support, offering heavier lifting for chronic, severe, or life-threatening conditions where the body needs more intensive cannabinoid support. Both formulas use the same intentional blends—the difference is simply the depth and strength of support they provide. Each tincture is crafted with care, ensuring the highest quality ingredients are used to maximize their potential benefits. Swan Apothecary is committed to providing products that promote well-being and resilience, allowing individuals to choose the level of support that best aligns with their personal health goals. Whether you are looking for a gentle nudge towards balance or require robust assistance in managing more complex health issues, these tinctures offer versatile options to enhance your wellness journey.

TOPICAL RELIEF CATEGORY

THE POWER OF NATURAL HEALING

Our Botanical Topical Relief products are crafted with plant-based ingredients to help soothe and comfort the body. Designed for everyday use, these formulas harness the power of nature to provide gentle, effective relief exactly where you need it.

NASAL SPRAY
SWA029

Our nasal spray is a unique formula suspended in colloidal silver, enhanced with a combination of CBD, CBN, CBG, and a trace amount of THC to activate and enhance the effects of the cannabinoids. To ensure smooth delivery, we use a blend of sunflower lecithin, polysorbate (kosher), and MCT oil as emulsifiers.

MUSCLE BALM
SWA027

Our Muscle Balm stands out with its high concentration of cannabinoids and luxurious formulation. Ideal for chronic pain, recovery, or everyday discomfort. The blend of natural butters and oils ensures a silky application and maximum skin nourishment.

TRANSDERMAL PATCH
SWA039

Our transdermal patches are designed for gradual release and continuous skin absorption over an extended period. Each patch is formulated to deliver a consistent cannabinoid profile through the skin barrier without going through the digestive system.

FLOWER CATEGORY

GROWN CLEAN. LOVED HARD. ENJOYED SLOW.

Cultivated from time-honored genetics and grown with care across generations, our Heirloom flowers represent the essence of family farming and legacy cannabis. Each strain is carefully selected, hand-trimmed, and slow cured to preserve structure, aroma, and terpene integrity. Whether Indica, Sativa, or Hybrid, every flower reflects our commitment to authenticity, craftsmanship, and uncompromising quality.

ONE OUNCE

SWA047

Enjoy our 1 oz container of premium Heirloom Indica or Sativa buds, featuring seasonal strains for a unique selection throughout the year. Whether you seek relaxation or creativity, our curated options cater to all preferences, ensuring a quality cannabis experience with diverse flavors and effects.

$200.00

HALF OUNCE

Enjoy 12 delicious Infused Cubes in each container!

$89.00

PSILOCYBIN CATEGORY

NATURES LOVE FOR YOUR WELLNESS

Our mushroom products offer numerous enduring healing benefits for the central nervous system. As a form of medicine, mushrooms assist in releasing trauma, opening our hearts to our highest purpose, and revealing life's wonders. They are non-addictive and pose no harm.

Hillbillies

PSILOCYBE CUBENSIS

Our psilocybin mycelium and mushrooms are obtained through two distinct methods. The Azursurecens are wildcrafted ceremonially from the northern coast of Oregon, while the cubensis are cultivated in hyperbaric chambers, nourished with classical music, and treated to a captivating light display. We select these specific fungi to empower you, the user, in healing emotional trauma through diverse approaches. **Azursurecens** thrive on reed grass within the sand dunes and are nourished by the elements of water, wind, and earth. Incorporating them into a micro-dosing protocol helps bring the human body into a state of harmony and balance. While **Cubensis**, on the other hand, possess a lighter energy within the psilocybin family. They open the heart, diminish fear responses in the brain, and enable participants to gain a completely different perspective on their circumstances. Plus, they often inspire laughter to the point of almost losing control —truly, they are joy bringers.

NATURES INGREDIENTS

Azurescens

Albino Penis Envy

Enigma

FRANK MILLS BLUE PILLS

SWA018

A social-friendly microdose option for those looking to engage with psilocybin in a light and approachable way. Each bottle contains ***30 capsules***, each capsule contains ***500 mg (0.5 g) of dried Psilocybe cubensis (Golden Teacher)*** mushrooms.

CONCENTRATE CATEGORY

PURE EXTRACTED MEDICINE

Fully Extracted Cannabis Oil (FECO) are the heavy hitters of our collection, used for intense crippling pain, severe nerve damage, and battling cancer. They are the highest milligram per gram of THC or CBD. These are 100% medicinal and should be used as such.

CBD FULLY EXTRACTED CANNABIS OIL (FECO) CONCENTRATE

SWA013

Our CBD dominate FECO is one of the foundational pillars of our business and products. This FECO in particular has been crafted to target neurological issues, chronic illnesses, cancers, and endocrine issues. FECO is incredibly beneficial for almost all individuals as this is the most powerful way to fully utilize the healing elements of the plant. The benefits of isolating the CBD molecule in this process allows a stronger hand in targeting and mitigating neurological issues, chronic pain, and even cancers.

THC FULLY EXTRACTED CANNABIS OIL (FECO) CONCENTRATE

SWA043

At the heart of our offerings, the Priority Blend FECO stands as a cornerstone of our commitment to delivering powerful, natural solutions. Crafted specifically to target chronic pain, cancers, and other serious health conditions, this Fully Extracted Cannabis Oil (FECO) is the purest form of cannabis extract. FECO is one of the most powerful ways to extract and preserve the healing compounds in cannabis. The extraction process ensures that every molecule from the plant works synergistically to provide maximum benefits. This makes it ideal for people seeking a stronger, more effective solution for chronic pain, cancer-related issues, and other life-threatening conditions.

SUPPOSITORY CATEGORY

HEALING FROM WITHIN

Our suppositories provide a highly effective way to deliver cannabinoids into the body quickly and efficiently. This method is especially beneficial for individuals requiring higher doses or seeking to reduce psychoactive effects.

SUPPOSITORIES

SWA034

Suppositories are an effective method for delivering cannabinoid medicine directly into the body, offering the benefit of a high dose without the psychoactive effects of THC. For many conditions, a therapeutic dose of cannabinoids ranges from 300 mg to 1000 mg per day. A 250 mg suppository allows you to receive this potent dose all at once in a manageable and precise form.

The pre-measured design removes any guesswork, ensuring you receive the correct dosage every time. We've structured our suppositories to meet the needs of individuals with serious, life-threatening conditions, such as cancer, requiring larger doses of cannabinoids.

3000 MG CBD BLEND INFUSION BUNDLE

SWA011

Our 3000 mg cannabidiol (CBD) infusion is blended in a base of both raw and refined hemp seed oil, enhanced with the invigorating essence of peppermint, and infused with terpenes. When combined with our 250 mg suppositories, this 3000 mg CBD infusion creates a harmonious cannabinoid regimen that offers both immediate and ongoing support for your wellness needs. This thoughtfully crafted blend aims to promote inflammation reduction throughout the body, including the brain, while delivering a comprehensive full-spectrum cannabinoid experience.

3000 MG 1/1 SUPPOSITORY BUNDLE

SWA031

Our 1500 mg THC and 1500 mg CBD infusion, with its balanced 1:1 ratio, is enhanced by raw and refined hemp seed oil, essential oils, and terpenes for overall wellness. When combined with our suppositories, this infusion provides a powerful synergy that offers immediate cannabinoid support and sustained relief. The combination optimizes absorption, ensuring long-lasting relief tailored to individual specific needs throughout the day.

TRIO BLEND SUPPOSITORY BUNDLE

SWA041

Our Trio Blend Infusion includes 1000 mg CBD, 1000 mg CBG, 1000 mg CBN, and 100 mg THC, offering a balanced cannabinoid profile in hemp seed oil. Enriched with terpenes like D-Limonene, Myrcene, Linalool, and Beta-Caryophyllene. This infusion is designed to promote overall wellness and helps the body maintain its natural balance. When used alongside our suppository, it excels in anti-inflammatory properties, providing support for both the cellular and endocrine systems.

30 Quantity	*60 Quantity*	*90 Quantity*
PRICE: $680.00	**PRICE: $1,100.00**	**PRICE: $1,540.00**

3000 MG ENDOCRINE REPAIR INFUSION BUNDLE

SWA015

Our 3000 mg cannabinoid infusion features a potent combination of 1500 mg THCA, 920 mg CBC, and 580 mg CBN in a base of hemp seed oil. This carefully crafted blend encourages balance and wellness by enhancing the body's natural systems. When paired with our 250 mg suppositories, it forms a holistic cannabinoid regimen that offers both immediate and ongoing wellness support. Together, they specifically address issues within the endocrine system.

PRICE: $680.00	**PRICE: $1,100.00**	**PRICE: $1,540.00**

*See pages 17-21 for more information on our high dose infusions

1	Why is the Oil a different color than when I last ordered?	The oil's color can vary from lighter to darker shades based on the processing method and the presence of chlorophyll from the plant materials. However, it's important to note that the color does not affect the potency of the medicine and the effect will be the same.
2	Why are there bubbles in my syringe? Does this indicate that the syringe is not fully filled or contains less product than I paid for?	Bubbles are an inevitable occurrence when filling syringes. To ensure each syringe contains the accurate amount of product, we meticulously weigh every syringe before they are dispatched to you. We ensure they are .5ml or half a gram.
3	How far do I insert the syringe recital?	For proper administration, we recommend inserting the syringe no more than 1 inch into the rectum. It is essential to adhere to this depth to prevent any risk of the oil reaching the liver, which could result in the patient(s) becoming high. To assist with accurate measurement, we suggest utilizing a rubber band wrapped around the number one marked on the syringe.
4	Do I remove the orange cap before inserting?	Yes! Please always remember to remove the orange cap from the syringe before inserting it into your body.
5	How long do I leave the Syringe in before removing?	After administering the oil rectally, you may safely remove the syringe. It is advisable to lay down for several minutes after inserting to ensure optimal absorption and comfort.
6	After inserting the product, do I need to wait before using the bathroom? If so, how long should I wait?	It is not uncommon for bowel movements to occur shortly after the administration of a suppository. This response is typical. As long as you are able to retain the medication for a minimum of three minutes, it should be adequately absorbed.

7	I have noticed oil stains on my underwear. Should I be concerned about this issue?	Some degree of leakage is normal and should be anticipated. This is not a cause for alarm.
8	I feel like I'm getting a rash from the suppositories. Should I be concerned?	This reaction is atypical. Please ensure you cleanse the area thoroughly before each use and to wipe effectively afterward. If irritation persists, discontinue use immediately and consult your physician.
9	Why are the syringes a different color than when I last ordered?	Sometimes, our supplier for the syringes may run out of the color we usually select, resulting in a backorder. To ensure that you receive your order promptly, we will opt for a different color syringe.

STEP 1

ORDER ONLINE

The simplest way to order is online on our website at www.swanapothecary.com

STEP 2

CALL US

If need help ordering you can call us (858)-215-1103 and we will happily help you choose products and place the order for you.
